

NEW: SBA ONE ENHANCEMENTS!!

Streamlined Enrollment & Key Updates Make Things Easier - Better Read Up!!

Just in! SBA One* - SBA's soup-to-nuts online portal for 7(a) loan processing - just got better with enhancements effective Monday, February 29th. Since launching a year ago, SBA has solicited lender feed-back on making SBA One even better. SBA listened. The latest enhancements include a new, streamlined enrollment process and updates throughout.

First-Timer? Updating Your Access? Here's the Info. SBA One gives your loan officers loan processors and underwriters the ability to take 7 (a) loans through the entire process, from eligibility to closing and beyond. With enrollment now integrated into the Capital Access Financial Systems (CAFS), once a user is approved, they'll have ASAP access to SBA One. Another enhancement: Authorized users can view your PARRIS Lender Scorecard information in SBA One. See the new [Enrollment Instructions](#) and the latest updates on the [SBA website](#).

So What's New? In all, more than a dozen enhancements. Here are a few:

- **Lender Contact Information.** With streamlined lender contact forms, lender and/or LSP contact details are captured at the loan level. As a lender, you also can add a new lender or LSP contact and/or select a contact from the list of contacts you've already added.
- **Hard Stops.** Easing the way to submission, you have the green light to complete an application even if a response to a question makes the loan ineligible to submit in E-Tran. And before submission, you get a list of these "hard stop" questions so you can modify the responses to make the loan eligible.
- **Credit Unavailable Elsewhere.** Enhanced validations are updated to comply with SBA Notification 5000-1356.
- **Collateral.** Blanket lien details can be captured below the collateral grid so you can describe any additional collateral conditions that should be added to the Loan Authorization.
- **Loan & Credit Memo Details Report.** For audit and reconciliation purposes, you can print out the Loan & Credit Memo Details Report after the underwriting section has been completed.

These and any future enhancements are designed to save lenders time, money - and headaches - and are part of SBA's strategy to encourage increased use of SBA One. Even if you're not making changes, it's a good idea to check out these latest updates. For questions about SBA One, please contact your SBA District Office.
